DISTRIBUTED ANTENNA SYSTEM

DAS ANTENNA CONCEALMENTS ALLOW FANS TO ENJOY THE GAME AND GREAT WIRELESS SERVICE SEAMLESSLY.

WE ARE STEALTH®

And at STEALTH, we design, engineer and manufacture custom Distributed Antenna System (DAS) concealment solutions. As you know, DAS is not for the faint of heart. We understand that, but rest assured we've created countless DAS concealments in a wide variety of places all across the country.

Our DAS concealments can be found in hallowed football stadiums, along beloved campus pathways, along municipal walkways and in some hard-to-reach spots.

EXTERIOR CONCEALMENTS

MARRIOTT MARQUIS PREMIER HOTEL | GA

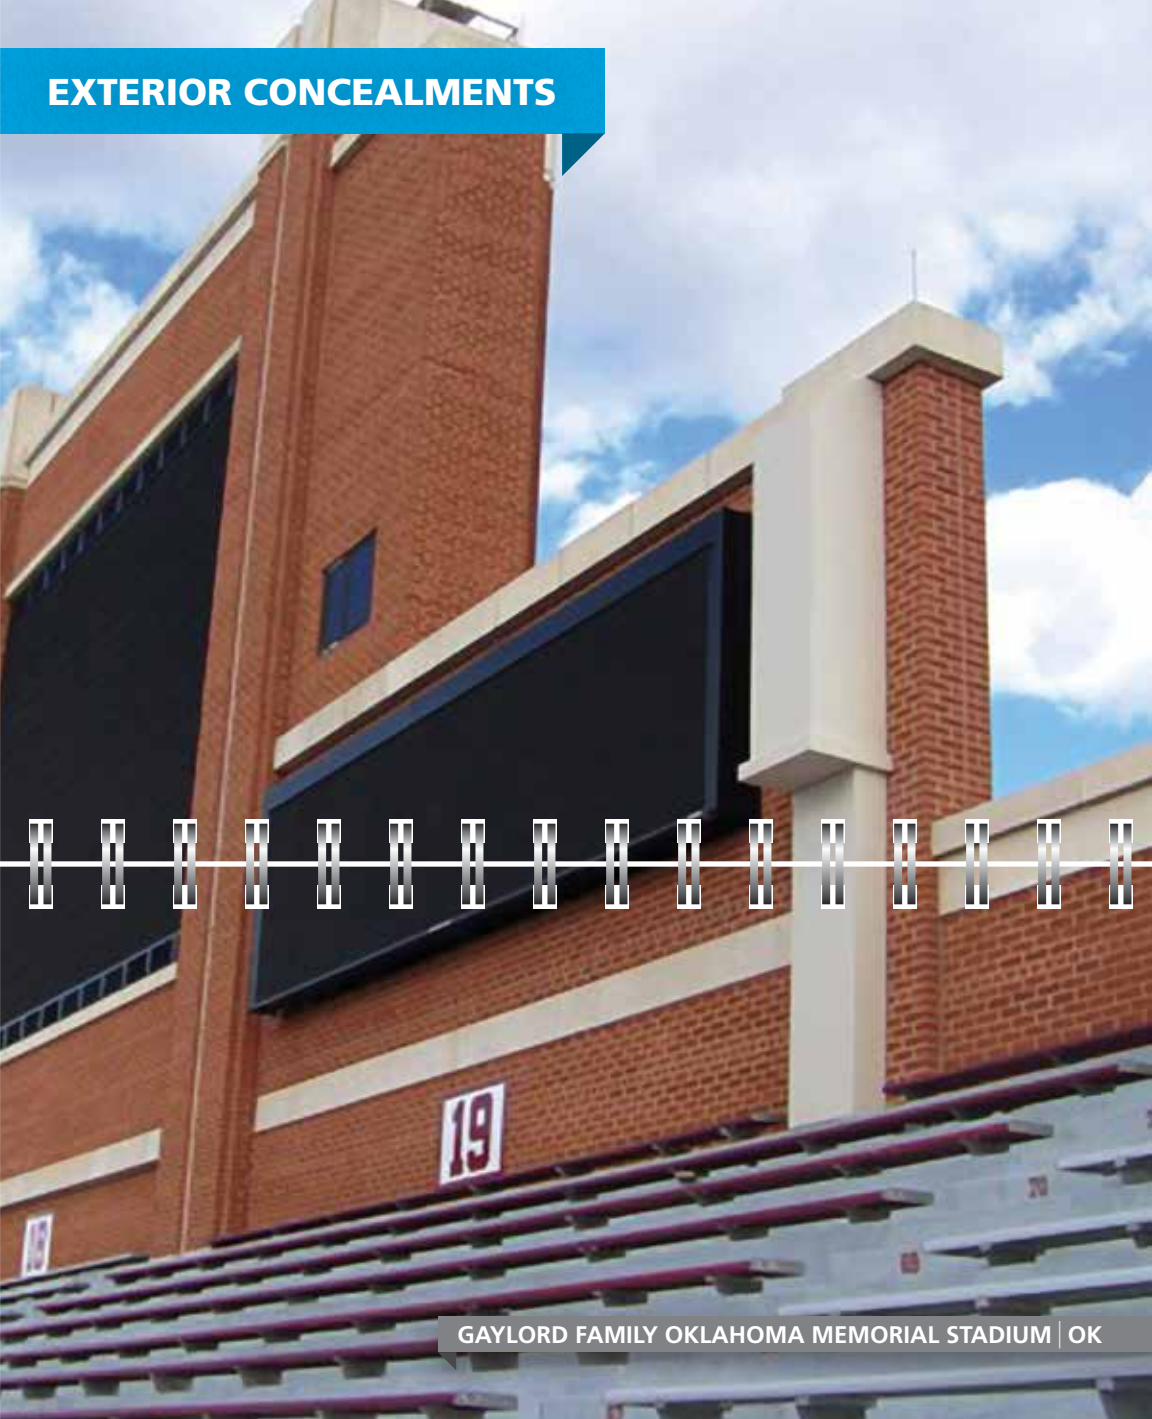

VAUGHT-HEMINGWAY STADIUM | MS

OUT OF SIGHT. OUT OF MIND.™

In stadium settings, we've hidden radios in some pretty amazing places you'd never dream to look. Interspersed stadium-wide, our proven DAS designs allow thousands of wired fans to simultaneously Tweet, Facebook, Text, Phone and browse the web with abandon.

EXTERIOR CONCEALMENTS

GAYLORD FAMILY OKLAHOMA MEMORIAL STADIUM | OK

BLENDING TECHNOLOGY WITH AESTHETICS

So how do you blend modern technology into an iconic stadium, without sacrificing aesthetics or RF signal? Staffed with concealment professionals and skilled artists, our project team seamlessly integrates the old and the new. We honor the heritage of a place, adapt to all branding guidelines, and ensure robust signal. It's an all-in-one package, and STEALTH has accomplished it thousands of times.

INTERIOR CONCEALMENTS

TAMPA BAY TIMES FORUM | FL

ARCHITECTURAL & AESTHETIC

STEALTH also designs, engineers and fabricates RF-transparent antenna concealment systems for interior DAS concealments. Architecturally sound and aesthetically pleasing antenna concealment systems are key to success. After all, no owner or visitor wants to see a cluster of antennas polluting their sight lines. It's not attractive, and it's not secure. Our staff artists and designers collaborate on every project, and that's great news for you.

CUSTOM CONCEALMENTS

NEW ORLEANS | LA

FREESTANDING CONCEALMENTS FOR AN ADDED BOOST

Beyond stadiums, we've designed systems that go from nearly invisible to highly decorative. Banner poles, lighting systems and signage can all do double-duty with DAS equipment hidden inside. Incorporating a concealment plan in your system design makes sense in this wired age. It creates concealment that's functional and "fits" the environment. We call that a win-win.

STEALTH MISSION

As the industry founder, we will continuously strive to produce the highest quality and best performing concealment products, through world-class integration of dedicated employees, innovative design and cost effective materials.

STEALTH VISION

Exceed all of our client's expectations.
Make a difference in the lives of people (financially and personally).
Enhance our position as the most innovative, creative and progressive company in the industry.

STEALTH CORE VALUES

The customer comes first, even when it hurts.
We act with honesty and integrity in all actions and decisions.
Cross-functional teamwork and communication are critical to our success.

BEYOND THE GRIDIRON

At STEALTH®, we take great pride in the company we keep. Our work has appeared in some of the most storied places in the world of sports and entertainment. From the Vegas strip to the walkways of Disney World, we've exceeded the needs of highly demanding clients.

When it comes to sports environments, our work is unmatched. We've concealed DAS in historical settings like Dodger Stadium and the USC Coliseum. STEALTH® has met critical deadlines, and challenging aesthetic demands, in many places including the Oakland-Alameda County Coliseum.

INSTALLING DAS? MAKE STEALTH® YOUR #1 DRAFT PICK.

**IF YOU HAVEN'T SEEN OUR WORK
WE'VE DONE OUR JOB.**

For more than 20 years, STEALTH has successfully designed and fabricated RF-transparent antenna concealment solutions for the wireless industry that meet the standards of unique requirements.

STEALTH has paved the way by charting key factors affecting concealment choices. By evaluating durability, maintenance, serviceability, and long-term flexibility from the start, STEALTH ensures value for the long haul. Understanding potential future costs now means you'll reap the rewards of long-term value.
